

SECURE DROP BOX

ABSTRACT OF THE INVENTION

Secure enclosure (10) is useful as mailbox or police evidence dropbox. Items are deposited through unsecured portal (32), pass past baffle (90) and are stored in secure compartment (40). Access to secure compartment (40) is through door (46). Lock lock housing (60) is mounted rigidly on door (46) and holds rotary shackle padlock (70) such that

5 rotary shackle (73) engages hasp (51) to lock door (46) but rotary shackle padlock (70) is protected against twisting, prying, or impact
